SECTION 2: HAZARDS IDENTIFICATION

GHS LABEL ELEMENTS

GHS PICTOGRAM

WARNING

GHS CLASSIFICATION				
CATEGORY HAZARD STATEMENTS				
Skin corrosion/irritation	Category 2	H315	Causes skin irritation.	
Skin sensitization	Category 1	H317	May cause an allergic skin reaction.	
Serious eye damage/eye irritation	Category 2A	H319	Causes serious eye irritation.	
Specific target organ toxicity (STOT), single exposure; respiratory tract H335 May cause respiratory irritation.				
PRECAUTIONARY STATEMENTS				

exposure; respirato	ory tract		
PRECAUTIONARY STATEMENTS			
PREVENTION			
P261	Avoid breathing dust/fume/gas/mist/vapors/spray.		
P264	Wash hands thoroughly after handling.		
P271	Use only outdoors or in a well-ventilated area.		
P272	Contaminated work clothing should not be allowed out of the workplace.		
P280	Wear protective gloves/protective clothing/eye protection/face protection.		
	RESPONSE		
P302+P352	IF ON SKIN: Wash with plenty of soap and water.		
P321	Specific treatment (as detailed in this SDS).		
P332+P313	IF SKIN irritation occurs: Get medical advice/attention.		
P362	Take off contaminated clothing and wash before reuse.		
P363	Wash contaminated clothing before reuse.		
P305+P351+P338	IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.		
P337+P313	IF eye irritation persists: Get medical advice/attention.		
P304+P340	IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing.		
P312	Call a POISON CENTER or doctor/physician if you feel unwell.		
STORAGE			
P403+P233	Store in a well-ventilated place. Keep container tightly closed.		
P405	Store locked up.		
DISPOSAL			
P501	Dispose of contents/container in accordance with applicable regional, national and local laws and regulations.

SECTION 3: COMPOSITI	ON/INFORMATION ON INGREDIENTS		
CHEMICAL NAME		CAS NUMBER	% WEIGHT
*The specific chemical identity	and exact percentage (concentration) is withheld as a trade secret per a	*Proprietary	100 and statutes.
SECTION 4: FIRST AID N			
EYE:	Immediately flush eyes with plenty of water, occasionally lifting the upper and contact lenses. Continue to rinse for at least 10 minutes. Get medical attention.	lower eyelids. Check for	and remove any
SKIN:	Wash with plenty of soap and water. Remove contaminated clothing and shoes with water before removing it, or wear gloves. Continue to rinse for at least 10 of any complaints or symptoms, avoid further exposure. Wash clothing before reuse.	minutes. Get medical att	ention. In the event
INHALATION:	Remove victim to fresh air and keep at rest in a position comfortable for breathing. If it is suspected that fumes are still present, the rescuer should wear an appropriate mask or self-contained breathing apparatus. If not breathing, if breathing is irregular or if respiratory arrest occurs, provide artificial respiration or oxygen by trained personnel. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation. Get medical attention. If necessary, call a poison center or physician. If unconscious, place in recovery position and get medical attention immediately. Maintain an open airway. Loosen tight clothing such as a collar, tie, belt or waistband.		
INGESTION:	Wash out mouth with water. Remove dentures if any. Remove victim to fresh ai for breathing. If material has been swallowed and the exposed person is const drink. Stop if the exposed person feels sick as vomiting may be dangerous. Do do so by medical personnel. If vomiting occurs, the head should be kept low somedical attention if adverse health effects persist or are severe. Never give an If unconscious, place in recovery position and get medical attention immediate clothing such as a collar, tie, belt or waistband.	cious, give small quantiti o not induce vomiting un o that vomit does not en ything by mouth to an u	es of water to less directed to ter the lungs. Get nconscious person.
NOTES TO PHYSICIAN:	Symptomatic and supportive therapy as needed. Following severe exposure, 48 hours.	medical follow-up should	d be monitored for
SECTION 5: FIRE FIGHTI	NG MEASURES		
FLASH POINT:	Not available.		
HAZARDS WHEN ON FIRE OR NEAR FLAME:	Closed container may forcibly rupture under extreme heat or when contents a	re contaminated with wa	ter (CO ₂ formed).
SUITABLE EXTINGUISHING MEDIA:	Use an extinguishing agent suitable for the surrounding fire.		
UNSUITABLE EXTINGUISHING MEDIA:	None known.		
SPECIAL EXPOSURE HAZARDS:	Promptly isolate the scene by removing all persons from the vicinity of the incitaken involving any personal risk or without suitable training. If in a fire or heat container may rupture.		
SPECIAL PROTECTIVE EQUIPMENT FOR FIRE FIGHTERS:	Fire-fighters should wear appropriate protective equipment and self-contained face-piece operated in positive pressure mode. PVC boots, gloves, safety heli worn.	I breathing apparatus (Simet, and protective cloth	CBA) with a full iing should be
HAZARDOUS DECOMPOSITION:	May produce toxic fumes of carbon dioxide, carbon monoxide, and/or halogen flame.	ated compounds when	near heat source/
SECTION 6: ACCIDENTA	L RELEASE MEASURES		
ACCIDENTAL RELEASE MEASURES:	For major spills call CHEMTREC : Toll free 1-800-424-9300 for international call 1-703-527-3887 .	II	
PERSONAL PRECAUTIONS:	Wear appropriate personal protective equipment recommended in SECTION 8 PROTECTION of this SDS. Immediately contact emergency personnel. Evacuinhalation of vapors. Clean-up should only be performed by trained personne should wear full protective clothing including respiratory protection.	ate the area. Keep upwi	nd avoiding
ENVIRONMENTAL PRECAUTIONS:	This material may contaminate the environment without proper control and redoes not come in contact with soil, waterway, drains, sewers, or other runoff the Inform the relevant authorities if the product has caused environmental polluti Sources of ignition should be kept clear.	nat would further dispers	e the material.
METHODS FOR CONTAINMENT:	Use diking or capping to control migration. Contain and absorb large spillage (such as vermiculite, earth, or sand). DO NOT USE combustible materials such or plastic bags for further decontamination, if necessary. Remove and properl a licensed waste disposal contractor (See SECTION 13: DISPOSAL CONSIDER authorities if release is reportable.	n as sawdust. Shovel int y dispose of residues. [o open-top drums Dispose of via
METHODS FOR CLEANING UP:	Only proceed with clean up by taking the appropriate personal protection mea area does not contain further hazards that could worsen the spill, cause migra any ignition sources). Move any non-contaminated, non-leaking containers from Dike, dam, or further restrict and stop active leaks without posing further dama and/or structures. Contain and collect spillage. See SECTION 13: DISPOSAL (and SECTION 8: EXPOSURE CONTROL/ PERSONAL PROTECTION for recomm (PPE). Obey all local, state, and federal regulations during clean up.	tion, or cause further ha om the spill zone if it can age or harm to individua CONSIDERATIONS for di	rm (i.e. eliminate be done safely. SECTION 7: HANDLING	& STORAGE			
GENERAL:	GENERAL: Ideal storage temperature is 60-90°F (15-32°C). Handling and storage shall be in accordance with local, state/provincial, or			
	federal regulations.			
HANDLING:	Before opening this package, read and follow warning labels on all components. Avoid contact with the product or reaction mixture. Put on appropriate personal protective equipment. Use only with adequate ventilation to ensure that the occupational exposure limit is not exceeded, use respirator when ventilation is inadequate. Avoid breathing aerosols, mists, and vapors. (See SECTION 8: EXPOSURE CONTROL/ PERSONAL PROTECTION for details). Do not ingest. Eating, drinking, and smoking shall be prohibited in areas where this material is handled, stored, and processed. Workers shall wash hands and face before eating, drinking, and smoking. Persons with a history of skin sensitization problems, asthma, allergies, or chronic or recurrent respiratory disease should not be employed in any process in which this product is used. Do not get in eyes, on skin, or clothing. Keep in the original container or an approved alternative made from a compatible material. Kept tightly closed when not in use. Empty containers retain product residue and can be hazardous. Do not reuse containers.			
STORAGE:	with water producing CO ₂ gas, a hazardous	erly sealed when stored. Keep contents away fro build-up of pressure could result if contaminated of inated containers, free of moisture, may be reseale	containers are resealed. DO NOT	
SECTION 8: EXPOSURE	CONTROLS/PERSONAL PROT	ECTION		
EXPOSURE LIMITS:				
ENGINEERING CONTROLS:		operations generate dust, fumes, gas, vapor, or mis ring controls to keep worker exposure to airborne		
HYGIENE MEASURES:	Wash hands, forearms, and face thoroughly with plenty of soap and water after handling chemical products, before eating, smoking, and using the restroom and at the end of the working period. Appropriate engineering, administrative, and other best practice decontamination control measures must be used to isolate contaminates on clothing and to prevent unintended migration of contaminants. Handle clothing and other potentially contaminated material appropriately and in compliance with local, state, and federal regulations in the process of removing, washing/cleaning, and reuse of these potentially contaminated materials. Ensure compliant use and location of eyewash station and safety showers.			
PERSONAL PROTECTIVE EQU	IPMENT (PPE):			
EYE PROTECTION:	Safety eyewear complying with an approved standard should be used when a risk assessment indicates this is necessary to avoid exposure to liquid splashes, mists, or dusts. If contact is possible, the following protection should be worn, unless the assessment indicates a higher degree of protection: chemical splash goggles and/or face shield.			
SKIN PROTECTION:	Personal protective equipment for the body should be selected based on the task being performed, the risks involved, and should be approved by an industrial hygiene specialist before handling this product.			
HANDS PROTECTION:	Chemical resistant gloves complying with applicable health and safety standards shall be worn when handling this product. Protective gloves are those made from butyl rubber, nitrile rubber, or polyvinyl alcohol. Appropriate hazard assessments in conjunction with an evaluation of the protection factors of chemical resistant gloves shall be performed to ensure the protective properties remain intact. It is noted that the time to breakdown of protection factors for different glove manufacturers varies. In the case of mixtures, the protection factors of chemical resistant gloves may be impacted and deteriorate at unpredictable rates without understanding the impact of the substance and the specific protection factors of the chemical resistant gloves.			
RESPIRATORY PROTECTION:	Ensure adequate ventilation. If the respirator is the sole means of protection, use a full-face supplied respirator. Use respirators and components tested and approved under appropriate government standards such as OSHA 29CFR 1910.134, NIOSH (US), or CEN (EU).			
ENVIRONMENTAL EXPOSURE CONTROLS:	Dispose of raw and spent materials and wastes in compliance with all local, state, and federal regulations to prevent potential environmental contamination. Industrial air monitoring may be required to determine any potential environmental hazards to the atmosphere. This monitoring may result in the use of engineering and administrative controls such as filtering and scrubbing systems to mitigate or eliminate potential contaminants.			
SECTION 9: PHYSICAL & CHEMICAL PROPERTIES				
PHYSICAL STATE:	Liquid	FLASH POINT:	Not available	
COLOR:	Clear	AUTO-IGNITION TEMPERATURE:	Not available	
ODOR:	Mild	DECOMPOSITION TEMPERATURE:	Not available	
ODOR THRESHOLD:	Not available	EXPLOSIVE LIMITS:	Not explosive	
pH:	Not applicable	FLAMMABILITY:	Not available	
WATER SOLUBILITY:	Not available	BOILING POINT:	Not available

FERTILITY EFFECTS:	Not available.	Not available.		
DEVELOPMENTAL EFFECTS:	Not available.			
MEDICAL CONDITIONS AGGRAVATED BY OVER-EXPOSURE:	Existing respiratory/pulmonary and skin conditions may be aggravated by overexposure.			
SECTION 12: ECOLOGICAL INFORMATION				
ENVIRONMENTAL EFFECTS:	Based on a review of the individual components, this product has low ecotoxicity on aquatic organisms. The potential of bio-accumulation occurring is low.			
SECTION 13: DISPOSAL CONSIDERATION				
WASTE DISPOSAL:	By-product wastes or process waste generation should be eliminated and/or minimized when possible. Do not dispose of any contaminants into sanitary sewer systems, storm drains, Publicly Owned Treatment Works (POTW), or any other municipal waste water treatment facility without written approval and agreements for processing wastes with such enterprises. Dispose of raw or unused materials, wastes, and/or by-products in accordance with all applicable local, state, and federal laws. Employ the expertise and knowledge of qualified personnel or contractors in disposal of any and all variants of this product. Ensure material containers are cleaned to the applicable standards before recycling, disposing, or reusing containers. Take special precautions to avoid any cross contamination and potential unknown effects from mixing with other substances. Refer to SECTION 8: EXPOSURE CONTROL/ PERSONAL PROTECTION of this document for personal protection requirements. Disposal to the environment or in violation of environmental protection laws and statutes must be prevented.			

SECTION 14: TRANSPORT INFORMATION		
PROPER SHIPPING NAME:		
DOT:	Not regulated.	
TDG:	Not regulated.	
IMDG:	Not regulated.	
IATA:	Not regulated.	

This product could potentially contaminate aquatic and terrestrial environments if not handled in accordance with all precautions, regulations, and laws. Users, transporters, and all other applicable entities must review, follow, and apply any and all necessary precautions and procedures to eliminate and/or minimize potential hazards or risks to aquatic or terrestrial environments.
