FMJ ULTRA™

The toughest spray-on bedliner guaranteed!

Other companies make this claim. For nearly two decades, SPI has stood behind its claims by providing the industry's only Transferable, Limited-Lifetime Wear Warranty.

Cost savings for your business. Stronger coating saves approximately one gallon of material per bedliner.

Labor savings. FMJ ULTRA™ formula contains the Ultra Bond™ molecule. Provides superior adhesion to clean, dry, non-oxidized surfaces. Eliminate sanding and cleanup, thereby cutting bedliner surface prep-time by approximately 50%.

Protected dealer territories, no franchise fees, and extensive marketing support.

SEAMLESS SOLUTIONS FOR OVER 40 YEARS
