

2016 APPLICATOR TRAINING CLASS

By popular demand, SPI is now hosting twice as many training classes in 2016 at 5 locations across the U.S. and even more in other countries. The unparalleled knowledge content in the curriculum has been streamlined into specific training modules for polyurea, polyurethane foam, equipment, safety and application. As always, we offer more hands-on practical training and valuable tips from industry renowned, highly experienced applicators and class instructors. This year we are celebrating our 100th class, and to date we have trained over 2000 applicators in the US and abroad. Come experience the SPI difference!
