

SPI SPECIALTY PRODUCTS, INC.

SEAMLESS SOLUTIONS FOR OVER 40 YEARS

Use your existing 1:1 ratio equipment to maximize your business revenue!

Did you know that SPI's foam and polyurea formulations can be run through your equipment with no flushing required between products? We offer more than 100 custom engineered polyurethane pour and spray foams, to fit any application you may have. Our portfolio of products also includes dozens of polyurea formulations that will flow through your machine for waterproofing, concrete resurfacing, corrosion protection, non-skid, and more!
